

Ingenico Telium2 iWL250G

Mobile Payment Solution

For Payments on the Go

Benefits at a Glance

- Portable payment processing is great for delivery, kiosks and much more. Eliminates the need for a phone line or Internet connection
- The wireless SIM card automatically detects the best carrier signal, providing reliable coverage
- Ready for EMV chip cards
- Contactless payment capabilities

This all-in-one mobile solution efficiently and securely processes transactions anywhere. The compact ergonomic design provides easy transport, and a long-life battery ensures that you have enough power to get through any busy day. The iWL250G supports a full range of payment types including, credit, debit, EBT and gift cards through an easy-to-use solution. And it's ready for acceptance of secure EMV "chip" cards, protecting you and your customers from counterfeit card fraud. The iWL250G also has integrated Contactless technology that extends the convenience of "tap and go" payments and prepares you for the acceptance of mobile wallets.
